linkedin.com/in/phyothihaoo | github.com/PhyoThihaOo32

Software engineer and 4.0 GPA Computer Science student with experience building internal business tools, AI safety experiences, full-stack applications, automation frameworks, and C++/Qt desktop software.

EDUCATION

City University of New York, BMCC | A.S. in Computer Science | GPA: **4.0**

New York, NY
Jan 2025 - Jan 2027
Yangon, Myanmar
2010 - 2014

Myanmar Maritime University | B.S. in Nautical Science

EXPERIENCE

Software Engineering Resident | NYC Tech Talent Pipeline

New York, NY
Jun 2026 - Present

- Completed a **12-week full-stack residency** focused on JavaScript, React, Express, PostgreSQL, REST APIs, Git, and Agile delivery.
- Built and deployed **3 full-stack applications**, including a ranked-choice voting app processing **3,000+ sample records**, and contributed a JavaScript/Fluent localization fix to Mozilla Firefox.

Software Engineer Intern | Universal Processing LLC

Manhattan, NY
Jun 2026 - Present

- Built and deployed an internal **KPI Tracker for 10+ users**, centralizing work submissions, KPI scoring, category assignment, and admin review.
- Implemented individual and shared-entry review flows with category assignment, point splitting, validation, and approval.
- Used regression, integration, end-to-end, and user acceptance testing to improve KPI data accuracy and workflow reliability.

AI & Education Technology Intern | PYE Education Center

New York, NY
Jul 2026 - Aug 2026

- Defined child-safe AI guidelines for age-appropriate language, harmful-content prevention, and misuse protection.
- Designed interactive AI lessons and translated supervised user-testing observations into clearer lesson flows, navigation, and experiences for children.

AI & Software Innovation Intern | CUNY 2x Tech @ BMCC

Manhattan, NY
Mar 2026 - May 2026

- Built and deployed an AI-powered resume builder that helped **30+ BMCC students** strengthen application materials.
- Helped lead an AI and job-search workshop covering resume improvement, job discovery, and application preparation.

SELECTED PROJECTS

SafeYork (Guardian AI) | TypeScript, AI Safety | GitHub

Apr 2026

- Led a 4-person team to win **3rd Place** in the Software Coding Track of the CUNY AI Innovation Challenge: Tech for Change.
- Built an AI-powered safety app with SOS alerts, trusted contacts, location sharing, safety timers, and privacy-aware danger classification.

MindEase | C++17, Qt 6, Qt Widgets | GitHub

Spring 2026

- Developed a modular desktop wellness platform with journaling, mood tracking, campus resources, self-care tools, and guided support for BMCC students.

HONORS & LEADERSHIP

3rd Place, CUNY AI Innovation Challenge | Student Government Association Representative | Phi Theta Kappa | Dean's List every semester since Spring 2025

TECHNICAL SKILLS

Languages: C++, Java, JavaScript, TypeScript, Python, SQL, HTML/CSS, PHP

Frameworks & Libraries: React, Vite, Node.js, Express.js, Tailwind CSS, Qt, Qt Widgets

Data & Tools: PostgreSQL, MongoDB, Git, GitHub, Docker, Postman, VS Code, Linux/Unix, Vercel

Concepts: REST APIs, Agile/Scrum, Object-Oriented Programming, Data Structures & Algorithms, Software Testing
